# One click to online privacy

Protect your privacy by encrypting your connection and hiding your real IP address from the web pages you visit, without bandwidth or data transfer limits.

## VPN to guard your online privacy

Encrypt your connection and hide your real IP address with an unlimited VPN.

## Privacy on public WiFi networks

Ensure privacy on public Wi-Fi with automatic WiFi protection.

## Change your virtual location

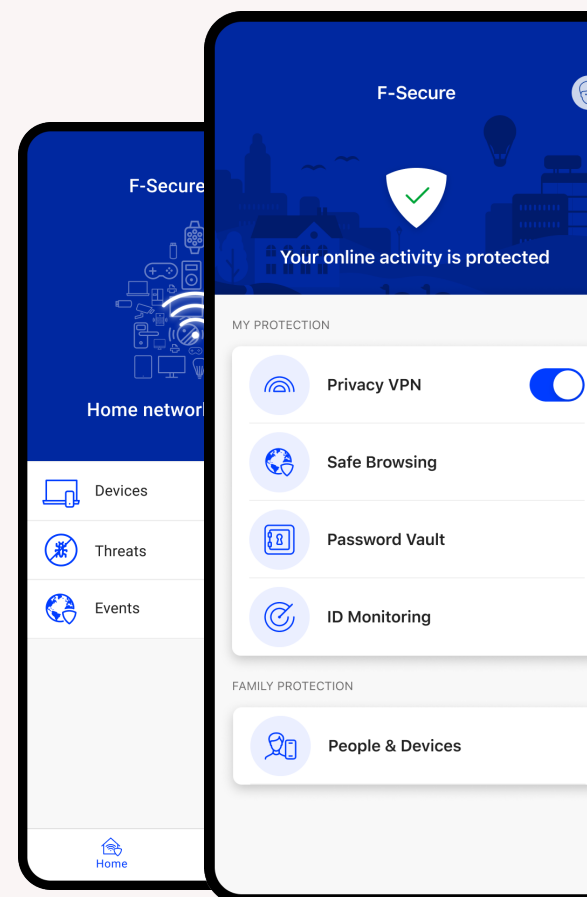

Select your virtual location from over 20 countries to face fewer geo-restrictions.

## Stay untracked online

Stop advertisers from making money at the expense of your privacy.

## Your data and browsing – protected

Explore the internet freely and stay safe from harmful and dangerous web pages.

## Technical details

### Supported platforms

Windows 8.1, 10, 11 or later\*

macOS 11 (Big Sur) or later

iOS 14 or later

Android 8.0 or later

\*ARM-based tablets are not supported

Check out [www.f-secure.com/vpn](https://www.f-secure.com/vpn) for the latest technical details and supported languages.
